## Planning for Fodder

Want to reduce your reliance on expensive handfeeding? Find out how and develop your own farm plan to maximise summer groundcover.

Are you keen to increase your summer ground cover - Reduce the feed gap and protect your top soil?

Join us for this hands on farm planning session. Solutions tailor made for your farm and farming system, facilitated by Phil Barrett-Lennard of AgVivo.

Bring your computer and farm maps, and step through what's required to plan fodder chains and integrate them into your whole farm plan. Places are limited so register your interest now.

### Event Details

**When:** Wednesday 23 September, 12.00-3.30pm with lunch provided
